At our meeting tomorrow we will continue from last time, looking at issues as we come up with themes and recommendations for the president. I've categorized below the issues that were brought up at our last meeting and perhaps they can help start the discussion.

JA

1) Communication

- not enough, too much, wrong type
- community doesn't know about security staff protocol changes
- forum in fall reactive
- safety office
- safety awareness campaign, green dot
 - active bystander
 - Green Dot is an approach to violence prevention that capitalizes on the power of peer and cultural influence

2) Culture/Climate/Prevention

- not addressing root causes
- proactive
- racial profiling
- sexist/homophobic/non-inclusive atmosphere
- Equity training for all new students, orientation, REDI and Green Dot
 - active bystander
- sexual harrassment/assault policy

3) Physical Security/Presence

- buildings not locked at night, or when they're meant to be
- night courses at edge of campus, away from core
- not enough security officials walking the beat, being visible
- more Go Safe, during the day?
- not enough/too much police on campus
- poor lighting near bus stops, parking areas, between buildings
- one access card for all buildings
- Glendon safety shuttle
- drug dealers on campus
- homeless on campus
- subway coming
- more cameras
- special constable status

4) Safety Office

- where do you go for info?
- student ambassadors
- centralized sexual assault/gender-based violence office
